

Who We Are

University Athlete is a small team of former coaches and dedicated developers with a mission to help coaches and athletes in volleyball find the right fit.

We provide software tools to college coaches to make their jobs easier:

- Our online application gives them access to hundreds of thousands of athletes and acts as a central library for evaluations, notes, ratings and even tasks that each program's staff can collaborate on.
- Our mobile application combines rosters and schedules with staff evaluations at hundreds of events each year
- Nearly 1,000 collegiate programs use our platform every year

Every athlete in the country has access to a free profile:

- They can provide missing essential information such as GPA, high school and family
- They can verify and correct bad roster data
- They can upload unlimited video links and other supplemental information
